# CLOSING REMARKS

## DEPARTMENT OF PUBLIC WORKS ENGINEERING OFFICE

As with any construction project, the Town of Enfield is asking for patience from residents, business owners and visitors as a number of construction projects progress. We realize there is a considerable amount of construction around town and we are requiring the contractors to be sensitive to the operations of the residents and businesses located in the work area.

We know it is an inconvenience but we also know that as we make these improvements, the end product will benefit the Town of Enfield and the community as a whole. It's going to be a tremendous change.

During construction, please visit [www.enfield-ct.gov](http://www.enfield-ct.gov) for up-to-date information on this project.
